SUMMARY

Information Technology undergraduate at AKGEC who ships complete systems — machine-learning pipelines and inference interfaces on one side, production web applications on the other. Founder of Quest, a campus delivery platform, with experience taking products from architecture through launch and running operations for large student initiatives.

TECHNICAL SKILLS

Languages: Python, C, C++, Java, TypeScript, SQL, Dart

AI / ML: MLOps, Computer Vision (OpenCV), Google ML Kit, Gemini API, Streamlit, model evaluation

Web & Data: Next.js, React, FastAPI, Payload CMS, Tailwind CSS, WebSockets, PostgreSQL, SQLite, REST APIs

Practices: System design, API design, Git / GitHub, rapid prototyping, technical documentation

EXPERIENCE

Founder — *Quest, Campus Micro-Delivery Platform* 2025 – Present

- Launched a peer-to-peer hostel delivery and task-exchange platform exclusively for AKGEC students, with real-time bounty claiming over WebSockets and a gamified Quest Points system.
- Architected the full stack — Next.js front end, FastAPI services, PostgreSQL — and own product direction, engineering, and campus go-to-market.

Internal SIH Coordinator — *Smart India Hackathon, AKGEC* 2025

- Ran institutional Smart India Hackathon rounds end to end: student registrations, team mentorship on problem-statement feasibility, jury evaluation, and event logistics.

HR & Administrative Lead — *Software on Service (SoS), AKGEC* 2025 – Present

- Lead human resources, organizational workflows, and event operations for the campus technical society.

Core Team Member — *Omnikon ORG, Open-Source Community* 2025 – Present

- Contribute to an open-source, student-led community focused on developer tooling and peer mentorship; served as Campus Ambassador for the Omnikon National Hackathon (Cybermaster tier, 52 referrals).

Volunteer & Social Media Manager — *Robin Hood Army* 2024 – Present

Member & Volunteer — *Slum Swaraj Foundation (AKGEC Student NGO)* 2024 – Present

Content Creator — *YouTube & Instagram (daily video production)* 2024 – Present

Private Academic Tutor (Class 12 and below) · **Fitness Trainer** — *Tarvin Health and Fitness Zone*

SELECTED PROJECTS

AKG University Web Portal — *Full-stack university platform*

Next.js, Payload CMS, TypeScript, Tailwind CSS — Built a content-managed university portal on a headless architecture, separating editorial workflows from presentation for scalable, non-developer content updates.

StudyPartner — *LLM-assisted learning platform*

FastAPI, PostgreSQL, WebSockets, Gemini API — Developed an educational application for AKTU students with WebSocket focus rooms and database-managed notes and study material.

Predictive Waste-Routing — *WasteChakra 2026, IIT Delhi*

Python, OpenCV, MLOps — Designed a predictive waste-routing model using computer vision and route optimization; qualified Round 1 and Round 2 of the national competition.

Startup Conclave Website — *AKGEC event platform*

Next.js, React, Tailwind CSS — Designed and deployed a responsive event site supporting agenda discovery and ticketing for the AKGEC Startup Conclave.

ACHIEVEMENTS

- **1st Place, Social Media Challenge** — TechXtract Hackathon (Team Rocket); co-founded and pitched *The Upcycle Engine*.
- **2nd Position, Team Stages** — Code Theft Auto, GDG AKGEC (Team Families).
- **Top 10 Nationwide** — Virtual Crypto Trading Contest, NIT Kurukshetra, competing on algorithmic indicators.
- **National Finalist, Solo Flute** — IIT Delhi Rendezvous (51st edition), performing the Mahabharat title track.
- **Bronze Medal, Powerlifting** — Open category, competitive strength event.

EDUCATION

B.Tech, Information Technology — Ajay Kumar Garg Engineering College (AKGEC), Ghaziabad 2025 – 2029 (expected) | CGPA 8.23 / 10

ICSE, Class X — 95%
